

## News Release

---

August 23, 2004

**FOR IMMEDIATE RELEASE**

### **ParaFX.com Launches Email Anti-Virus Protection**

**All customers receive email anti-virus protection automatically and at no extra charge!**

ParaFX.com is proud to announce an upgrade to our email system allowing us to offer Anti-Virus protection to all our clients.

All customers subscribing to any of our email services will receive Anti-Virus protection automatically. We have implemented an anti-virus scan on all incoming and outgoing email on our system. If an infected email is sent to you, our system will block the email from being delivered if it has confirmed it to be infected with a virus attachment.

Our system has been set up to block a large majority of email viruses and worms, however it is important to note that we can not guarantee 100% email virus blockage. Our system ensures that 99.9% of email viruses will be stopped, however we do recommend that clients install anti-virus software on their computers to prevent other types of infection methods.

ParaFX.com is constantly working to develop more value for our clients. We wish to thank our customers for their continued support. Questions or concerns can be directed to [support@parafx.com](mailto:support@parafx.com)

#### **About ParaFX.com**

ParaFX.com is a privately owned Internet Hosting Services Provider operating in Toronto, Canada. ParaFX.com, unlike many other service providers, work with partners and clients to provide a higher and more personal level of service. ParaFX.com prides itself in being able to provide customers with direct support and service from the owners directly, which ensure customers get the support they require in record turn-around time. ParaFX.com is a leading provider of Web hosting services to graduating students of post-secondary institutions such as Humber College of Applied Arts and Technology. ParaFX.com meets the needs of new designers and developers in this industry by working directly with post-secondary institutions to provide a cost effective portfolio hosting solution to students upon completion of their educational career. ParaFX.com has developed and will continue to develop an extensive and expandable hosting infrastructure that will prove to have the means to offer services never before available from conventional hosting providers. Through our focused operation, we will pursue a level of hosting services that will continue to exceed client expectations.
