

## News Release

---

Feb 28, 2005

**FOR IMMEDIATE RELEASE**

### **ParaFX.com Expands All Shared Hosting Packages!**

ParaFX.com has been working extensively over the past few months to enhance our service offerings. ParaFX.com is pleased to announce that we have increased our Windows and Linux Shared Hosting packages to provide up to 500% more web disk space for our customers, at no additional charge!

Customers who subscribe to our Windows or Linux shared hosting packages have automatically received their disk space upgrade seamlessly. The upgrade is effective as of this news update.

ParaFX.com feels that this complimentary upgrade is a great way to reward our long standing customers as well as to maintain a competitive edge with other hosting service providers.

This larger capacity is the spring board for more enterprise level services for our customers to grow with.

We value our customers and their suggestions and this upgrade was made possible by the helpful suggestions of our client base.

ParaFX.com wishes to thank our customers for their continued support and patronage.

#### **About ParaFX.com**

ParaFX.com is a privately owned Internet Hosting Services Provider operating in Toronto, Canada. ParaFX.com, unlike many other service providers, work with partners and clients to provide a higher and more personal level of service. ParaFX.com prides itself in being able to provide customers with direct support and service from the owners directly, which ensure customers get the support they require in record turn-around time. ParaFX.com is a leading provider of Web hosting services to graduating students of post-secondary institutions such as Humber College of Applied Arts and Technology. ParaFX.com meets the needs of new designers and developers in this industry by working directly with post-secondary institutions to provide a cost effective portfolio hosting solution to students upon completion of their educational career. ParaFX.com has developed and will continue to develop an extensive and expandable hosting infrastructure that will prove to have the means to offer services never before available from conventional hosting providers. Through our focused operation, we will pursue a level of hosting services that will continue to exceed client expectations.
